Summary

Site Reliability Engineer with expertise in Cloud Infrastructure and automation.Skilled in designing and maintaining scalable cloud systems using Terraform and CI/CD pipelines.Achievements include improved system performance and reduced downtime through effective monitoring and incident response strategies.

Experience

Crest Data Systems January 2024
Ahmedabad

https://www.crestdata.ai/

- Oversaw and optimised the Splunk Cloud environment , executing the scheduled maintenance and upgrades, achieving enhancements in efficiency and a decrease in downtime.
- Delivered timely and accurate solutions for Splunk Cloud customers through various communication channels.
- Delivered the splunk cloud architecture based on customer requirements, also modified and upgraded the architecture, enhancing system efficiency.
- Documented solutions in Confluence, enriching the knowledge base and supporting colleagues.
- Supported US Fortune 100 companies with technical expertise via email, Slack channels and Jira.

Education

Nirma University 2020-2024
Electronics and Communication Bachelor of Technology
7.26 CPI

- Gained foundation in electronics, computer architecture, microprocessor and controller, signals and systems and VLSI design.
- Projects: Fibonacci Series Generator, 2 DOF Robotic Arm Manipulator, Deblurring of Number Plates, Brain Tumour Classification,
- Completed practical projects and internships focused on real-world applications of ECE principles.

Projects

AWS Cost Optimiser October-2025
Developed lambda function to delete snapshots

Developed an AWS Lambda function to automatically delete EBS snapshots associated with terminated EC2 instances, reducing unnecessary storage costs. The function was triggered by an automated CloudWatch scheduler to identify and remove snapshots no longer linked to active instances.

Tech-ops Stack Build April-2024

Build the staging environment stack and configured through puppet and Jenkins. It contains search-heads, indexers and cluster manager and the data was stored on Indexers.

Volunteering

Rotaract Club of Nirma University Club Executive	August 2022	Computer Society of India ITNU Club Executive	March 2022	Electronics and Communication Student Organisation (ECO) Club Executive	October 2021
Assisted in event coordination, crowd management, and backstage support during a large-scale live concert.					

Skills

Tool/Platform	Cloud Technologies	Version Control System
Splunk, Puppet, Linux	AWS, GCP	Git, Github
Scripting	CI/CD	Container Technology
Python	Jenkins, Argo CD	Docker

Certifications

Cybersecurity for Everyone University of MARYLAND	June 2022	Hacker Rank Certificate of Problem Solving Hacker Rank	September 2021
https://coursera.org/verify/YUQ5MMXEAGL2		https://www.hackerrank.com/certificates/ff5a81431461	

Learned about the security management and cyber attacks and the strategies to overcome it.

It covers the basic topic of Data Structure and Algorithm.
